Wizards Training

Ab Initio Training Course Curriculum

Duration: Four Weekends/ Sat & Sun: 9.00am – 1.00pm or 1.00pm – 5.00pm
Weekdays - Mon, Wed, Fri: 6.30pm – 9.30pm or Tue, Thu: 6.30pm – 9.30pm

Ab Initio
Data warehouse concepts
Introduction to Data Warehousing
Types of Data warehouses
Warehouse Models
Dimensional Modeling
Introduction to Ab Initio
Ab Initio Architecture
Introduction to Ab Initio Components
Basic Concepts and DML
Introduction to types of Components
Ab Initio Components
Sort
Reformat
Rollup
Scan
Normalize
Denormalize-sorted
Partition Components
De-partition Components
Database Components
Steps to Building Applications

Add datasets.
Add components.
Add flows.
Edit Component Parameters as needed.
Graph Parameters
Global and Local Parameters
Formal and Local Parameters
Debug your application

Training Location: 1039 Sterling Road, Ste. 103, Herndon-VA-20170. USA.
Ph: 703-263-7278, 703-968-6268 Fax: 703-935-8849 training @wizardsedu.com

Wizards Training

Ab Initio Training Course Curriculum

Duration: Four Weekends/ Sat & Sun: 9.00am – 1.00pm or 1.00pm – 5.00pm
Weekdays - Mon, Wed, Fri: 6.30pm – 9.30pm or Tue, Thu: 6.30pm – 9.30pm

Anatomy of a Running Job
Performance Tuning Techniques
Partitioning, Layouts
Lookups and Variables
Data Parallelism
Phasing and Check pointing
Repartitioning
Building generic graphs
Advanced Ab initio Topics
Parallelism
Behind the GDE
Testing and Validation
Multistage and Advanced Components
Lookup Files
Reusability Features
Advanced DML Features
Performance
Custom Components
EME

Creating Projects in EME
Project parameters
Sandbox
Check-in and check-out projects
Air commands
Projects migrations
Database Components
Database Configuration file
Input tables
Output tables
Update Tables
Performance tuning
